

Bransgore Horticultural Society

News from the committee 12th October 2020

As a committee we have continued to work towards 2021 as far as lectures shows and trips are concerned. And the success of the virtual show was a good indication that you very much want to be involved and support the society for which we are all very grateful.

One issue which has given us much thought is the lack of space in the Resource centre now the meetings are so popular with an average of over sixty people attending. With this in mind and with the continuing worry over Covid we have made the decision to move our meetings to the Village hall. Due to this we will have to move the meetings to the first Friday of the month. However we will have more space better toilet and kitchen facilities and all round a safer environment.

As far as when our next meeting will be is very much in the lap of Boris but we are still hopeful for a Christmas party so keep your fingers crossed.
