

Bransgore Horticultural Society

News from the committee 13th December 2020

Over the past few weeks we have been trying to organise next year's venue, shows, speakers, schedule and trips with mixed success.

Venue,

As you know the decision was made some time back to move the venue for our meetings to the village hall to give us more space and better facilities. Unfortunately the only evening available was a Friday so we have changed our meeting nights to the first Friday in the month. Since then the village hall has informed us that certain Fridays may not be available as events such as weddings and our shows like Friday evenings to set up. To date we are unaware of any such events, however if this does occur we may have to cancel that month's meeting. We have already decided to cancel the April meeting as that falls on Good Friday and to move the September meeting to Thorney Hill as that is the night of the village quiz.

We appreciate that it is a bit of a muddle but we have made the decision that for 2021 we will go with the flow as let's be honest we have no idea when we will be able to start meetings again. We will review this in the New Year.

So please bear with us and we will keep you informed as to what is happening.

Shows,

We are planning the shows as normal but will of course have to follow government guidelines so it is very much a case of keep your fingers crossed.

Do not forget the fun class for the spring show which next year is any bulbs grown in an undecorated four inch flower pot.

If we are unable to hold actual shows we will of course hold virtual ones as we did in the spring.

Trips,

This has not been straight forward as people are not sure what is going on next year however the coach is booked and all being well we will have a trip in June. We will email members and put it on the web site as soon as we have a clear picture.

The RHS have still not confirmed if the September Wisley show is happening so watch this space.

Schedule

With so much still up in the air the decision has been made not to publish the schedule until late January and to review how it is distributed and subscriptions collected early in the New Year.

If you have any questions reference any of the above please contact Bob Sawyer;
